## Our Story:

---

Laundry Care is a female founded laundry service company with locations nationwide. Founder, Danielle Balog began the company as a one-woman laundry service in 2009 as a way to earn a way to earn extra income for her family without sacrificing time away from her children. As Laundry Care grew, she offered other local moms the opportunity to make extra cash by starting their own independent branches of the service.

Since then, Laundry Care has blossomed into a much larger operation with over 40 independently operated locations and nearly 100 providers nationwide-most of them women! The company is set to reach \$1.5 million in sales in 2018.
